Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Patent No. 6249772 to Walker et al.

Walker et al. disclose systems and methods wherein a buyer purchases a product at a first price and acquires the product from a merchant that offers the product for sale at a second price. In the system, when a user computer identifies a product online via a web-browser, user computer is then provided a price established by a manufacturer and transmitted from central controller. Walker et al. taken either individual or in combination with other prior art of record fails to teach or suggest automatically returning the electronic order confirmation from the back end Enterprise Resource Planning (ERP) application to the front end application, and wherein the electronic order confirmation comprises the entitled price and the estimated date of delivery as recited in independent claims 2, 17, 32, and 47.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
